## NANO-TECHNOLOGY

UNDERSTANDING THE SCIENCE OF  
SURFACE COATING

Using nano-particle technology, SMARTKOTE™ is an exclusive range of treatments to maintain the showroom appearance of your vehicle.

Containing no harsh chemicals SMARTKOTE™ is eco-friendly & comes with a lifetime warranty offering you years and years of peace of mind.

Nano-technology deals with the study of molecular & atomic particles, a world that is measured in nanometers (billionths of a meter or 10<sup>-9</sup>) & is 1000 times smaller than the human eye can see.

Working at this nano scale, specifically designed molecular architectures and intelligent structures can be created. These supra (nano) molecules provide superior, performance-enhancing attributes such as stronger, smoother, longer lasting, more flexible & smarter surface coatings.

“ SMARTKOTE™ creates a “Hydrophobic” and “Oleophobic” surface coating. Hydrophobic means 'having little or no attraction for water' and Oleophobic means 'lacking affinity for oils' ”

## GLOSSY EXTERIORS

ULTIMATE SHINE & PROTECTION

“ You can't see nano-technology but you'll know it's there ”

01

SURFACE  
COATING

SMARTKOTE™ Surface Coating will help preserve & protect your car's surface areas. It coats the exterior using nano-technology, providing exceptional resilience to contaminants & harsh environmental conditions.

Its unique formulation delivers durability, hardness & a brilliant shine. SMARTKOTE™ ensures your car will maintain its pristine condition!

## SMART INTERIORS

SMART SHEEN, SMART SUPPLENESS

ALL PRODUCTS ARE

ENVIRONMENTALLY FRIENDLY

**02**

LEATHER  
COATING

Preserve The Scent & Feel Of  
Luxurious New Leather.

SMARTKOTE™ Leather Coating is  
formulated to sustain the feel & aroma  
of new leather upholstery.

Its high quality & natural lanolin based  
(pH Neutral) ingredients provide a  
highly effective barrier against stains,  
spills & marks.

**03**

VINYL  
COATING

Coating That Nourishes,  
Moisturises & Protects

SMARTKOTE™ Vinyl Coating is  
formulated to protect damage such as  
discolouration & fading from UV rays,  
temperature fluctuations as well as  
everyday wear & tear.

Actively penetrating the surface layer  
of vinyl, this treatment is low-sheen,  
non-greasy & non-slick. Its water  
repellent properties ensure easy care  
with spills.

**04**

CARPET &  
FABRIC  
COATING

Environmentally Friendly  
Carpet & Fabric Protection

SMARTKOTE™ Carpet & Fabric Coating  
provides durable & invisible protection  
against common oil & water-based  
spills whilst being completely safe  
for you, your family, your pets & the  
environment.

SMARTKOTE™ Carpet & Fabric  
Coating contains no harsh chemicals &  
is particularly ideal for pet owners or  
for those who suffer from allergies.
